U4SSC Key performance indicators for Smart Sustainable Cities

The U4SSC Initiative has developed a set of international **key performance indicators (KPIs)** for **Smart sustainable cities (SSC)** to establish the criteria to evaluate ICT's contributions in making cities smarter and more sustainable, and to provide cities with the means for self-assessments.

U4SSC current work

U4SSC is currently working on the following deliverables:

- Guidelines on tools and mechanisms to finance SSC projects
- Guidelines on strategies for circular cities
- City science application framework
- Blockchain 4 cities
