>> CHAIR: Good morning.

Good morning, ladies and gentlemen. Welcome for
this third session of the plenary of the WTSA 16. I would
like to welcome Mr. Secretary-General who is back with
us, after a short trip abroad. And to welcome also
Mr. Director of radio sector, Mr. Francois Rancy.

Thank you. I hope that during these two days we will get some harvest or some comprehensive outcome of this Assembly. And for this, I would like to go through the two days agenda of this session agenda, that I would like you to approve. If there is no comments we can consider the agenda as shown approved. Then we move, Singapore is requesting the floor. Singapore, please.

>> Singapore: Thank you, Chairman. Yesterday at the meeting I think by acclimation we had endorsed the candidates for Chairmanship and Vice Chairmanship of TSAG, the various Study Groups and so on. I do not see that anywhere on the agenda. I thought the plenary was going to do a confirmation of the appointments.

May I suggest that we take that item right up front, and have confirmation of all the candidates as before we move on to the other items, please. Thank you.

>> CHAIR: Thank you, Singapore, in fact it is not in the section two day agenda, it will be tackled in the later session of course.

It is to mention that we cannot go through the, for the Study Groups and Vice-Chairs until we have approved a certain resolution including resolution number 2 which gives the final agreed number of Study Groups, and then we can appoint chairs and Vice-Chairs.

Thank you, Singapore.

So, if you have no other comments on the agenda, I suggest that we go ahead with that. Next item is the approval of the reports of the first and second plenaries.

If you have no comment on this report, I would like you to consider them as approved. I see no comments. I will consider these reports as approved.

Now, let us go on to the oral summary reports, brief reports from our chairs of committees, starting by com 3, com 4, and then we will start with go on with com 4, com 5, sorry, presentation, presenting the outcome of these meetings.

I have just one comment before giving the floor to com 3 Chair. I have just to share with you, we have spent as you know, nine days debating discussion, that is 254 meetings, which is quite huge. This is 4 and 5 hours of meeting. So this is a quite huge amount of time of discussions of debate. Let us say it is useful and I hope it will be considered as useful, because during all these meetings, we have had time to express ourselves, our opinions, our thoughts and to discuss with others, and we hope that the coming day today and tomorrow will be to summarize all the discussions and to come out with comprehensive decisions and solution for all of the

issues that have been debated.

I rely on you for that. Thank you for it. Now I give the floor to Steve for com 3 brief, very brief report. Steve.

>> Thank you and good morning to all delegates. Committee 3 completed its work. We considered all proposals and reached agreement on nearly everything.

We completed our work on time yesterday, the final report has been prepared and will shortly be posted as document 115. Throughout our work, we have agreed to modifications of 13 resolutions, and one new resolution, and in the spirit of the Director's request that we examine streamlining of resolutions, we have also agreed to the suppression of five resolutions. Concerning work on the A series, we have two elements of that series which we have agreed to modify and another to republish together with its appendix and no change for a few others.

We did agree based on discussion that we will request TSAG to conduct a holistic review of document development and approval procedures across resolution 1 recommendation A .1 and recommendation A .13 and to prepare a proposal for the next Assembly. While we did agree on many of these things in this Assembly, it was clear from the discussion that further work was needed,

and TSAG is the appropriate vehicle to carry out that work.

I regret, Mr. Chairman, we delivered you one sentence only, but it's only one sentence in square brackets, in resolution 1, to be resolved, and I'm hopeful that consultations which are ongoing will reach a satisfactory agreement before we reach that point on your agenda. I would like to thank all of the delegates who participated in Committee 3, my Vice-Chairs and Working Group chairs, the TSB and interpreters who assisted us in the completion of this work. Thank you, Mr. Chairman.

>>CHAIR: Thank you, Steve. I would like com 4 Chair, Kwame, to present briefly results of com 4. Kwame.

>> KWAME BAAH-ACHEAMFUOR: Thank you, Chair, good morning Distinguished Delegates. Chairman I report to you the report of com 4.

Over the last days, com 4 managed to use as many as 27 ad hoc groups, drafting groups and informal consultations to be able to go further into discussions and to come to certain agreements. As much as we try to have these achievements in agreements, we couldn't have it all, and there are pending issues that I am to forward to you for this plenary.

So issues outstanding currently are resolution 52, resolution 38, on drafting new resolution on OTT, one drafting resolution on OTT, one drafting resolution as well on OTT, issues that has got to do with privacy and trust in ICT infrastructure services, which is one of a draft new resolution. Then there are certain draft new resolutions, and revised resolutions that contains certain terminologies and has to be looked at. We couldn't have the time to really look at new question for Study Group 20, and this is about what we have, Mr. Chairman, for your results. Thank you.

>> CHAIR: Thank you, Kwame. Thank you, I would like to thank on your behalf chairs of com 3 and com 4 and chairs of Working Group 3A, 3B, 4A and 4B for the tremendous work they have been doing all along these nine past days. Thank you very much. You have done, in my opinion, a very important work, even though as we just heard some of resolution, some of issues are still to be agreed, and this will be now our duty as plenary, and we will tackle them in the coming session.

UK is asking for the floor. UK.

>> UK: Thank you, Chair, and good morning. I would just like to add to the list presented by the Chair of com 4 two further resolutions that were, had been up

for discussion in informal talks, resolution 29 and resolution 60. Unfortunately, we have not been able to get agreement on those two resolutions.

So they are added to that list. Thank you.

>> CHAIR: Thank you, UK. I may even add maybe resolution 50 also. So anyway, we will address all the remaining and resolve on agreed resolution for our plenary next session.

So, let us then move to the outcome from com 5, and the text, the draft text proposed or submitted to the plenary by com 5, the Editorial Committee for approval. I will give the floor now to Chair of com 5 to present to us the series of text to be approved. Mrs. Rim.

>> Thank you, Chairman. The Editorial Committee would like to present to the plenary a set of 7 series of texts from 228, the second series was submitted to us by com 4 and appear in document 74. It contains resolution 72 and 73. These texts are submitted for approval of the plenary.

>> CHAIR: Thank you, Mrs. Chair, thank you, Rim. I propose now to move on with this proposed text for approval and to go through them one by one, starting with resolution 72, that we will put on the screen in order for you to have a quick review, but I believe you

have already gone through very carefully. That was resolution 72.

So, I propose to you to approve this modification of resolution 72. Silence means agreement, as per Fabio statement, so I consider the modification of resolution 72 approved.

(sound of gavel).

Next resolution is 73.

Please, let's have it on the screen. I think there is clear ... okay, thank you. Thank you. So I propose to approve resolution 73. Okay.

(gavel).

Thank you.

Next series of text proposed or submitted to, by the editorial Committee. Next set of, next series, who is managing the screen? It's going on? Okay. Rim, Chair of com 5, yes.

>> Thank you, Chairman. We move to document 75, submitted by com 4, and it includes resolution 40, 44 and 76.

These texts are submitted for approval of the plenary. Thank you.

>> CHAIR: Okay, thank you, Rim. Let's have resolution 40. It's a short one. Okay. I see no comment

on that. I suggest that we approve this resolution 40.
Okay.

(gavel).

Approved. Next resolution is 44. This is 44.

This is annex to 44. Okay, go through the annex.
Okay. Thank you. I propose that we approve resolution
44 as submitted to us. I see no comment.

(gavel).

Approved. Next one is 75. 76, sorry. This is 76.
Thank you. That was 76. I propose that we approve it.
No comment. Approved.

(gavel).

Next, next series, Rim, please.

>> Thank you, Chair. We move to document 84,
submitted by com 3 to com 5. It includes resolution 35,
55 and 68 for approval by the plenary.

>> CHAIR: Thank you. Let's look at 35, revision
35.

Thank you. I see Argentina asking for the floor.
Argentina, please.

>> ARGENTINA: Thank you very much, Chair. Good
morning, everyone. We were just reviewing the text. If
I remember correctly, in the taking into account C, we
agreed to finish the drafting after the, of the advisory

groups in the screen, when it says advisory groups, we need to put a full stop after advisory groups and end the sentence there. That is a small editorial correction, Chair.

>> CHAIR: Thank you. No other comment. Thank you, Argentina. I suppose it is small editorial comment. I propose to you that we agreed on it. Okay. Thank you for your agreement. We give back this resolution to com 5 to insert this minor editorial change. Thank you for that. Okay. I suggest to you that we approve this resolution with the editorial modifications suggested by Argentina. It's okay. We consider it as approved.

(sound of gavel).

Next, next one is resolution 55. I have it on the screen. This is not 55. Is it? Yes. Okay. I suggest to approve it, no comment, approved.

(gavel).

Let's move to resolution 68.

This is resolution 68, document on that. I suggest that we approve it.

(gavel).

Approved. We move to the fifth set or series of texts submitted by com 4. Mrs. Rim.

>> Thank you, Chairman. We move to document 95,

submitted by com 3, and it contains resolution 7,
resolution 18, 67, resolution 70, resolution 80, 57,
and 71 for the approval of the plenary.

>> CHAIR: Thank you, Rim.

>> Please note that all resolution will undergo
further editorial work before these are published in
final work. Thank you.

>> CHAIR: Thank you, Rim. So let us start with
resolution 7, if you can have it on the screen. Resolution
7. I suggest that we approve it, no comment. Approved.

(gavel).

Next one, resolution 18. Okay. Let's go through.
That was resolution 18. I suggest that we approve it.
No comment.

(gavel).

Approved. Next one is resolution 67. Thank you.
I propose that we approve it. No comment. Approved.

(gavel).

67 approved. Next is 70.

That was the subject of this morning's event chaired
by Mrs. Saks, Andrea. I suppose she is in the room.
Thank you. That was resolution 70. I propose to approve
it. No comment.

(gavel).

Approved. Next one is resolution 80. Okay. It is a very short resolutions, as per the new guidelines. I propose that we approve resolution 80 as modified, no comment. Approved.

(gavel).

Next one is resolution 57.

57. Resolution 57. Ah, okay, sorry. Resolution 7, 57 is suppressed.

So, I propose that we approve this suppression. No comment.

(gavel).

Approved. Resolution 57 is suppressed. Let's move on to resolution 71.

Resolution 71 is also proposed for suppression. I propose that we approve the suppression of resolution 71. No comment.

(gavel).

Approved. Now, let's move on to the next set of text submitted for the plenary. Rim, please.

>> Thank you, Chairman. So next document 88 includes resolution 77 -- 98, sorry, includes resolution 77 and two new resolutions, com 4.1 and com 4.2.

>> CHAIR: Thank you, Rim. Let's move to 77 modified resolution. Thank you. I propose we approve resolution

77 as modified. No comment. Thank you.

(gavel).

Let's move to the new resolutions on standardization work in the ITU telecommunication standardization sector for cloud-based event data technology.

Let's go through. It's a short one, as per the guidelines. I'm happy with that. I propose that we agree or we approve this draft new resolution, I see no comment from the floor. Approved.

(gavel).

Next draft of new resolution, studies concerning the protection of users of telecommunication/information and communication technology services. I suggest that we go through. Okay. Thank you. I suggest that we approve this new resolution. I see no comment. Approved.

(gavel).

I give back the floor to Rim for next series. We have only two series left so we can go through quickly. Rim, please.

>> Thank you, Chairman. Next document is 101, submitted by com 4. It contains resolution 20, 49, 64, 65 and 69, and we have four new resolutions, com 4/3, com 4/4, com 4/5 and com 4/6.

Thank you, Chairman.

>> CHAIR: Thank you, Rim. Let's go through, resolution 20, please. Thank you. Resolution 20, I propose that we approve it, no comment. Approved.

(sound of gavel).

Next one, resolution 40, 49, sorry. Okay. That was resolution 49. I propose that we approve it. No comment. Approved.

(sound of gavel).

Next one is 64. Let's go through. Thank you. I propose that we approve 64 as proposed. No comment. Thank you.

Next one is 65. Let's go through. Thank you. I propose that we approve resolution 65 modified as proposed. No comment. Thank you.

Resolution 69. Please go through.

Okay, resolution 69 as proposed to the plenary, I see Japan asking for the floor. Japan, please.

>> JAPAN: Thank you, Mr. Chairman. We have already passed the way, but resolution 65, I found square brackets on noting, page 11, so I want to know how to handle it. Thank you.

>> CHAIR: Okay. We have already passed the way, as you said.

(laughter).

>> JAPAN: Sorry.

>> CHAIR: I suggest, I take note of your comment. I suggest that we go through the remaining resolutions, I keep this point, and I will give you an answer back after having gone through the agenda. Okay? Is it okay for Japan?

>> JAPAN: Yes, thank you very much, yes.

>> CHAIR: Thank you. So next one is resolution 69, that we have on the floor.

69, okay. I see UK asking for the floor. UK.

>> UK: Thank you, Chair and good morning. We look for clarification regarding the title of this resolution. We had understood that the title would be telecommunications/ICTs. I want clarification that information and telecommunication technologies is correct. Thank you.

>> CHAIR: Thank you, Japan, thank you, UK, sorry, I thank also Japan but UK. Regarding the title, Mrs. Rim. I suggest that we stick on what was approved, what was agreed during the related committees, whether it is ICT or information communication technology. That was in which, in com 4. Kwame? I will ask the Chair of com 4 what was the agreed text for the title. I see Tunisia

requesting the floor, United States and I suppose Kwame for Ghana. Would you mind if I give the floor first to Kwame to give us guidance on this. Is it okay for you, United States and Tunisia? Okay, Kwame, the floor is yours.

>> KWAME BAAH-ACHEAMFUOR: Thank you, Chair, so it should read slash information and communication technologies.

>> CHAIR: As it is now in the text.

>> KWAME BAAH-ACHEAMFUOR: No, for now it is information and telecommunication.

>> CHAIR: Technologies, okay.

>> KWAME BAAH-ACHEAMFUOR: It should rather read, slash, information and communication technologies.

>> CHAIR: Okay. Tunisia, it was Rim asking for the floor for com 5.

>> Yes, thank you, Chairman. The title came with an abbreviation, and we can't keep abbreviation in titles. It has been misspelled. So we are going to correct it.

>> CHAIR: Okay, good. Thank you. This resolution --

>> Another answer for the text between brackets, we use brackets when we are not sure if there will be modification or suppression for the reference. And it

will be corrected, well, taken after. So during the second --

>> CHAIR: Addition.

>> Later on, after the approval of the plenary. Thank you.

>> CHAIR: Thanks. That was the answer for Argentina comment. Now for the agreed upon text during the com 4, I understand it was information and communication technology instead of information telecommunication technology. I see U.S. asking for the floor and Cuba also. U.S., please.

>> UNITED STATES OF AMERICA: Thank you very much, Mr. Chairman. So my understanding is in both instances where the word telecommunication or telecommunications appears, those will be struck, and it will be information/communications technologies.

Thank you, Chair.

>> CHAIR: Thank you, U.S.

Cuba, please.

>> CUBA: Thank you, Chair. The title is what is used usually within ITU, technically, we use ICTs and this is information and communication technologies, that is the full, it is not telecommunication but communication, as was echoed by the delegate of the UK,

it should read telecommunication/information and communication technologies. This is the equivalent of the ICT acronym which is used within ITU. Thank you, Chair.

>> CHAIR: Thank you, Cuba. Russia, please.

>> RUSSIAN FEDERATION: Thank you, Chairman. Let's simply write it the same way as we do everywhere, telecommunication/ICT. Thank you.

>> CHAIR: Thank you, Russia. No other comments. So I suggest that we move on with the initial words or the initial sentence, initial title, as came out from com 4, which is as you read on the screen, nondiscriminatory access and use of Internet resources and telecommunication/information and communication technologies. I suggest that we approve this on this way. Germany, please.

>> GERMANY: Thank you, Mr. Chairman. As I was convening the group, the ad hoc group dealing with this particular resolution, the title we gave or the title that was given to Committee 4 was in the tradition of other documents of the ITU and reads telecommunication/ICTs. Now I leave it of course to the Editorial Committee whether such a title is acceptable. But I concur with the Distinguished Delegate from Russia

that you find this title in many other ITU documents.
Thank you.

>> CHAIR: Thank you, Germany. I see Singapore requesting the floor. Singapore, please.

>> Singapore: Thank you, Chairman. If you look within the same document, itself, in recognizing E, you will see that there is a reference to telecommunication, without the S, and then slash, information and communication technologies. So I think that was the intent, telecommunication/information and communication technologies and the first telecommunication is without the S. Thank you.

>> CHAIR: Thank you, Singapore. What I see now is that we globally agree on what this, on the substance. As for the title, what I suggest is that we keep on with the title as was presented by com 4 to com 5, which have been modified from ICT to information and communication technology. I would like you to approve this resolution with the proposed title. I see no comment from the floor.

(gavel).

It is approved as per shown on the screen, that that is information and communication technologies. Thank you for that. Let's move on now, on the next resolution, which is resolution new, draft new resolution

on enhancing the standardization activities in the ITU telecommunication standardization sector, related to nonradio aspects of international mobile telecommunications. Let's go through, please.

Thank you, I propose that we approve this new resolution. No comments. Approved.

Next one, is a draft new resolution, coming from com 4, related on international mobile roaming. Let's go through, please. Thank you for this short one. I suggest that we approve it. No comment. Approved.

Next, draft new resolution is related to enhancing access to electronic repository of information on numbering plans published by the ITU telecommunication standardization sector. Let's go through.

Thank you. I propose to approve this new recommendation, this new resolution, sorry. No comment. Approved. Next one, the final one in this series and we will have only one series left, is draft new resolution on interconnection of 4G, 5G IMT2020 networks and beyond. Let's go through. Thank you. I see Ghana asking for the floor.

>> GHANA: Thank you, Chair. Reporting for com 4 and just to align with the agreement as with resolution 2, that anywhere we see 5G/IMT-2020, we will take off

the 5G slash away. So now it will remain IMT-2020 throughout. So 5G slash will go away. Thank you, Chair.

>> CHAIR: Thank you, Chair of com 4. No comment on that. Okay. I propose that we approve with the indicated modification by Chair of com 4, which is removing 5G slash, either from the title or in the text. I see no objection. So approved with this modification.

We come to the end of the 7th series. The last one, of text submitted to our plenary. Mrs. Rim, please.

>> Thank you, Chairman. We move to document 103, submitted by com 3, and it includes this resolution 11, resolution 22, and resolution 45. And we have also a new resolution com 3/1.

Thank you.

>> CHAIR: Thank you, Rim. Let's go through, resolution 11. Okay, that was resolution 11. No comment. I propose that we approve it. Okay. Approved.

Next one is resolution 22. Let's go through. Thank you. I propose that we approve it as it is. No comment. Approved. Thank you.

Next one is resolution 45. Let's go through. Thank you. I propose that we approve it. No comment. Approved. Next one is a new draft new resolution, which is related to evaluation of implementation of resolution

of the World Telecommunication Standardization
Assembly.

A short one but probably efficient one. Thank you.
I propose that we approve it. No comment. Approved.
Thank you. This closes the agenda of our this morning's
session. We are ahead of schedule which is quite good,
but that was the easy task. The hard one is to come.
So, sorry. My secretary is requesting the floor, should
I give it to him or not? Unless you will announce such
as financial -- (off microphone)

(pause).

Sorry, it was not about financial. It was about
asking com 5 what do they have in their own agenda now,
and what we will soon have as outcome from com 5 proposed
to for approval by the plenary. Rim, can you tell us,
Mrs. Rim, can you tell us about your plan, as for the
document that will be ready for approval by the plenary?
Thank you.

>> Thank you, Chairman. When we finished yesterday
night thanks to the great team we have of Secretariat,
operators and Vice-Chairmen and delegates who helped
us, we were up to date. But there was no other document
in the pipes to be processed.

So, now, the Committee is processing, yeah, document

99, it includes resolution 1, and recommendation ITU-T A12. And we have also document 109, and document 102.

So maybe by the end of the day, we can present it to the, present them to the plenary. Thank you.

>> CHAIR: Sorry, Mrs. Rim, can you repeat the draft that will be proposed to the plenary during this afternoon's session?

>> So it will be document 99.

>> CHAIR: Which is, what is included in it?

>> It includes resolution 1. Recommendation ITU-T A12.

>> CHAIR: Is it ready now?

>> Document 109. It includes resolution 2. And the third document will be document 102. It includes resolution 54, 75, and six new resolutions.

>> CHAIR: Okay. So, please, Mrs. Chair can you tell us what you have ready?

>> We will be working on them during the day.

>> CHAIR: That means that nothing is ready now?

>> No. Thank you.

>> CHAIR: I asked whether you have one of these documents ready now, or to be ready for our next sessions. This is what I'm interested in.

>> It's by the end of the next session. They are

being processed now.

>> CHAIR: Okay, thank you, Mrs. Chair, this is useful, this information, in order to prepare our agenda for the next sessions.

>> Because we --

>> CHAIR: I see that we will not have proposed draft by Editorial Committee. So we will propose our agenda for the next sessions tackling the remaining items or topics from com 4. Thank you. We have come to the end of our agenda of this quite short session. We are ahead of time. This is good. So I suggest that we have, we close this session. And we start at let us say 2:00, is it fine, I see Argentina requesting for the floor. Argentina, please.

>> ARGENTINA: Thank you, Chair. Good morning, everyone. Without wanting to demoralize the session, we would just like to add that we accept the decision with regards to the suppression of resolution 71. But we would like to say in this plenary the importance of participation of academia and above all within the ITU-T sector where academia has been contributing to the different activities of the union, and we would at least like us to consider this issue within the report in order to incentivize the participation of academia within the

ITU-T sector.

And they bring such support to the technical aspects of the work, and we think they need to continue bringing the support and the different reports which are undertaken by the sector as well as other initiatives which are being undertaken such as technical journals and other publications of the union. Thank you, Chair.

>> CHAIR: Thank you, Argentina. I see Russia requesting the floor. Russia, please.

>> RUSSIAN FEDERATION: Thank you, Chairman. And good morning, colleagues. We would like to say that we are deeply impressed by the high-speed of today's plenary session. We would like to specifically thank the Chair for such very effective and rapid work.

Given that we do have a new time slot that's opened up, we would like to ask the Secretariat of the Chair, the conference and of this meeting, how we can continue to discuss the issues which remain pending and even problematic. Perhaps it would be worth organizing additional sessions with the participation of the regional representatives to continue our constructive work from this morning, and perhaps attempt to resolve the remaining problems and pending issues.

So what is your vision? Thank you.

>> CHAIR: Thank you, Russia, for this proposal.
I see Egypt requesting the floor. Egypt, please.

>> EGYPT: Thank you, Mr. Chair. I would like to say that following what Argentina said, there is an importance to refer to the Kaleidoscope meeting every year which is something really that needs highlighting. Thank you.

>> CHAIR: Thank you, Egypt. So, I don't see anyone asking for the floor. So I'll come back to Argentina. If I can summarize Argentina, your intervention was about resolution 71, that we just suppressed. And I understand that you are requesting for some text to be included in the summary report, this is what I have understood. Is it right?

>> ARGENTINA: Thank you for giving me the floor once again. Yes, that is correct.

>> CHAIR: Thank you, Argentina. I see Cuba and United States asking for the floor. I will give you the floor and then come back to Argentina proposal. Cuba, please.

>> CUBA: Thank you, Chair, I'd like to make a comment, that you said that resolution with regards to Japan, with resolution 77, there were still square brackets outstanding. I would therefore recommend it is within

the, that we should keep this on the list for consideration.
Thank you, Chairman.

>> CHAIR: Thank you, Cuba. I can answer you that was about resolution 75 if I'm not wrong and the brackets there were only editorial issue. United States.

>> UNITED STATES OF AMERICA: Thank you, not as United States, but Committee 3 Chairman, so we did have some discussion of this issue concerning resolution 71, certainly academia has been an important set of contributors to our work and has been involved with ITU-T since 2008 when this was first introduced. Since then, the academic category of participation has been formalized by Plenipotentiary decision and Council and Plenipotentiary 169 covers the rights of participation of academia in all three sectors.

We note also that the Radio Communication Assembly pursuant to that Plenipotentiary decision has suppressed their corresponding resolution 271.

We did note, however, that there were a couple of things referred to in the text of resolution 71 which we just suppressed. I believe what Argentina is asking for is something that we have some agreed text for your report, if it's acceptable to the meeting. The first is to continue with the Kaleidoscope events on a annual

basis rotating between the six regions to the greatest extent possible, and secondly, to note that as most forward-looking community of collaborators to encourage participation of academia in the elaboration of technical reports and the publications of the union such as the ITU news, the technical journal and other technical publications taking into account that academia does research studies and follow up the development of future technology corresponding to the competence of the ITU.

We have text that has been agreed, I believe with Argentina, so if it's acceptable to you in the meeting, we can offer you this text off line for inclusion in your report. Thank you.

>> CHAIR: Thank you, Steve. And you are Chair of Com 3.

Argentina, we consider your proposal as to be included the text that has been drafted, and that you will submit to me. We consider it to be included in the summary report of the Assembly. Thank you very much.

Now, regarding proposal of Russia, I see it's definitely has sense, as it is out of the scope of this plenary, we take into account your proposal, and with the Director of TSB, we will organise let us say an efficient meetings after the closing of this plenary.

Thank you, Russia, for your proposal. I see no one more asking for the floor.

I propose that you close this meeting, and we organise ourselves to be fresh and ready for probably much tough session in the afternoon. And it will be at 12 -- 2:00?

2:00 p.m. is fine. We will start at 2:00 p.m. I see Sweden asking for the floor.

>> SWEDEN: Thank you, Chairman, I just heard that there will be official time slots published or decided to address things. When can we expect to see that?

>> CHAIR: Thank you, Sweden. Sweden, you have been given the floor after the closer of this session of the plenary. So allow me to ask to reply to you off the mic. Okay?

Thank you. So this session as I said is closed. And next session starts at 2:00 p.m.

Thank you.

(applause).

(session adjourned at 10:48)
