KHALED ALMUTAIRI

Executive Director of Emerging Technologies and Digital Maturity, Ministry of Municipal Rural Affairs and Housing

Eng. Khaled Almutairi serves as the Executive Director of Emerging Technologies and Digital Maturity at the Ministry of Municipal Rural Affairs and Housing. With over 11 years of experience in digital transformation, Mr. Almutairi began his journey as a Business Technology Specialist. Over the course of 5 years, he dedicated his efforts to enhancing digital products for over 50 million customers in the telecommunications domain. In 2017, he transitioned to the digital government sector, assuming a pivotal role in the portfolio of business development. Through this role, he played a significant part in accelerating the digital maturity of 120 governmental agencies.

In 2022, Engineer Khaled joined MOMRAH with the mission to establish an innovation and emerging technologies ecosystem. His focus includes incentivizing smart cities and municipalities, furthermore, enhancing the quality of life for KSA citizens and residents through digital solutions. He holds a bachelor's degree in computer engineering, as well as a master's in business administration with first-class honors. His master's thesis revolved around analyzing citizenship behavior towards digital government in the Kingdom of Saudi Arabia.
