

Sara de Moitié

Co-Founder and Chief Product Officer, Gybe Maps

Having lived in over 10 countries, she has a granular, practical understanding of how global environmental changes impact different places around the world. She cares deeply about people and planet, and her work is focused on finding strategic ways to unlock meaningful progress in building a vibrant future for all.

Sara has broad experience across all aspects of design, and is in her element leading product development work. She loves working closely with customers to understand in detail what they want to achieve and why, unifying these learnings into a coherent product strategy, and working collaboratively with multidisciplinary teams to build real, impactful solutions that matter.

Sara is a co-founder and the chief product officer at Gybe. The team at Gybe is determined to revolutionize fresh water monitoring around the world, by enabling an understanding of ecological state in near real time, at a much larger scale than was previously possible, accelerating water quality collaboration and improvement, globally.
