Ganesh Swaminathan
Transparency Innovation Lead, OpenSC

Ganesh Swaminathan is the Transparency Innovation Lead at OpenSC, where he drives engagements with OpenSC's key customer accounts, liaising between business needs and OpenSC's product development. He further supports defining, planning, managing, and executing through the multiple stages of creating a solution for a new commodity and supply chain to drive positive social and environmental impact. Ganesh also leads a multidisciplinary team of designers, technologists, conservation & human-/workers-rights experts, and others to generate impact in innovative ways.

Prior to OpenSC, Ganesh worked at the Boston Consulting Group (BCG) for 8+ years advising C-suite leaders across multiple climate & sustainability and digital transformation topics. Ganesh also worked as an Investment Associate with Sidewalk Infrastructure Partners (SIP) focusing on sustainable technology infrastructure and innovative financing mechanisms. He has further held positions in impact investing groups in Singapore and Philadelphia and is a board member of the Clean Air Council, an environmental-focused non-profit based in Philadelphia.

Ganesh has an MBA from The Wharton School, an MS Chemical Engineering from Stanford University and a BS Chemical and Biomolecular Engineering from Johns Hopkins University.
