Asia-Pacific Telecommunication Indicators

5th Edition, 2002

The fifth edition of the ITU's *Asia-Pacific Telecommunication Indicators* has been prepared especially for ASIA TELECOM 2002 (Hong Kong, China, 2-7 December 2002). The publication consists of three parts: an analytical *overview*, *regional statistics* and a *directory* of telecommunication organizations. An overview of the region's telecommunication sector is the subject of the analytical *overview*. It looks at regulatory and policy developments with a focus on the fast moving mobile and Internet markets. The *statistical section* consists of regional indicator tables covering fixed, mobile, Internet and broadcasting data. Data is for year-end 2001. A listing of the region's top operators by revenue and mobile and fixed subscribers is also provided. The *directory* section consists of the names and websites of telecommunication ministries, regulators and facilities-based telephone and cellular operators in the region.
