## Unifying the Americas with Wireless Technology

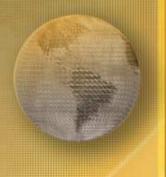

Association Overview 2003

www.3gamericas.org

3G Americas is a wireless industry association dedicated to the promotion and facilitation of the seamless deployment of GSM, GPRS, EDGE and UMTS throughout the Americas.

# 3G Americas will unify the Americas to:

- Serve as a single, authoritative source for information for the benefit of telecom and financial analysts, the press, government and regulatory officials, operators and competitive stakeholders
- Support the Third Generation migration strategy GSM/GPRS/EDGE and UMTS adopted by many operators in the Western Hemisphere
- •Engage strategies to provide economies of scale for operators and vendors alike resulting in better value for digital cellular customers
- Advocate the issues and opportunities for next generation wireless technologies in the Americas

## Members of the Board of Governors

3G Americas unites wireless operators and manufacturers in the Americas to provide a single voice to represent the GSM family of wireless technologies.

#### GSM for Rural and Regional Mobile Operators

By Chris Pearson, 3G Americas (June 2003)

Rural and regional operators in the Americas need to cost effectively evolve their networks to enable 3G data services. This paper explains how GSM can be transitioned into an operator's network and why GSM is the best opportunity for future revenue and customer growth.
