Mobile Learning Week
2018 was organized
under the theme “Skills
for a connected world”.**

ITU-FAO support e-Agriculture

ITU and FAO support the use of ICT to accelerate implementation of the 2030 Agenda for Sustainable Development in the agricultural sector.

Girls in ICT day

Empowering and encouraging girls and young women to consider studies and careers in the growing field of ICTs.

The screenshot displays the website for International Girls in ICT Day. On the left is a navigation menu with links for Home, Why is Girls in ICT Day?, How to get involved, Resources, Partnerships, Links to related organisations, Contact us, and Subscribe. The main content area features a video player titled 'What is Girls in ICT Day?' with a 'Play' button and a 'Full screen' icon. Below the video, text explains that the day is celebrated annually on the fourth Thursday of April (25 April 2018) and encourages organizations to create their own programs. It lists various stakeholders like academia, industry, and governments as encouraged participants. Statistics mention that over 300,000 girls and young women have participated in more than 3,000 events worldwide. A link to the 2018 event map is provided.
