To: ITU Administrations, Regulators, Sector
Members
(Candidates for the Smart Sustainable
Development Model Advisory Board)

Subject: Smart Sustainable Development Advisory Board

Dear Sir/Madam,

I have pleasure in inviting you to be a founding member of the *Smart Sustainable Development Model (SSDM)* Advisory Board. This initiative, which is spearheaded by the Telecommunication Development Bureau of the International Telecommunication Union, seeks to link ICT for Development (ICT4D) with ICT for Disaster Management (ICT4DM) leading to sustainable development and optimal resource use without additional financial investment in particular, the use of excess satellite capacity. In short, the aim is to mobilize infrastructure put in place for social services and local communities for disaster response in emergencies.

The Smart Sustainable Development Model initiative was launched in Dubai on the occasion of the ITU World Telecom 2012. The initiative was inspired by the realization that depending on humanitarian first responders that have to travel long distances to help affected communities in the immediate aftermath of disasters cost lives and money. A better and more holistic approach is to link development, and disaster risk reduction and response.

In order to move from plan to action, the time has come for the creation of an Advisory Board made up of great leaders and visionary thinkers from diverse backgrounds who will help craft concrete ideas and strategies for implementation with the aim of making a difference to individuals, households, communities, countries and the world at large thus, ultimately leading to saving lives and better lives. You are being approached as an acknowledgement and recognition of your outstanding personal and professional achievements in areas related to this initiative.

Accompanying this letter are terms of reference for the Advisory Board, as well as a brochure that will provide more background information on the initiative. It is envisaged that the board will physically sit twice a year and conduct most of its work electronically. The Advisory Board will have its first working session tentatively on 27 June 2013, at ITU headquarters located in Geneva, Switzerland.

It is my fervent hope that you will accept this offer to serve on this Board and I would be most grateful if you could please confirm your acceptance by 30 April 2013. Upon receipt of your confirmation, a letter will be sent out to invite you to the inauguration of the Advisory Board.

I look forward to meeting with you at the launch of the Advisory Board.

Yours faithfully,

[Original signed]
