São Paulo, Rio de Janeiro and Brasília are where most internet governance organizations in Brasil are based.

So who is left out?

Renata Aquino Ribeiro #IGRegional http://bit.ly/iregwsis

Meet Ceará

How about Paraíba (capital João Pessoa)?

And Sergipe?

Do you know Bahia?

We are not just talking about Brazil here

Engagement is only the first step, being heard, being visible, there is so much more to it

FAQ #IGRegional

- Is this about competition or do you hate other regions?
  No. Not at all. We only wish real regional balance as a diversity criteria.

- Where have I heard this before?
  InternetFreedomFestival.org and Rightscon.org

- Are there people against regional representation?
  Yes. But, we are only a support network, those who want, participate.
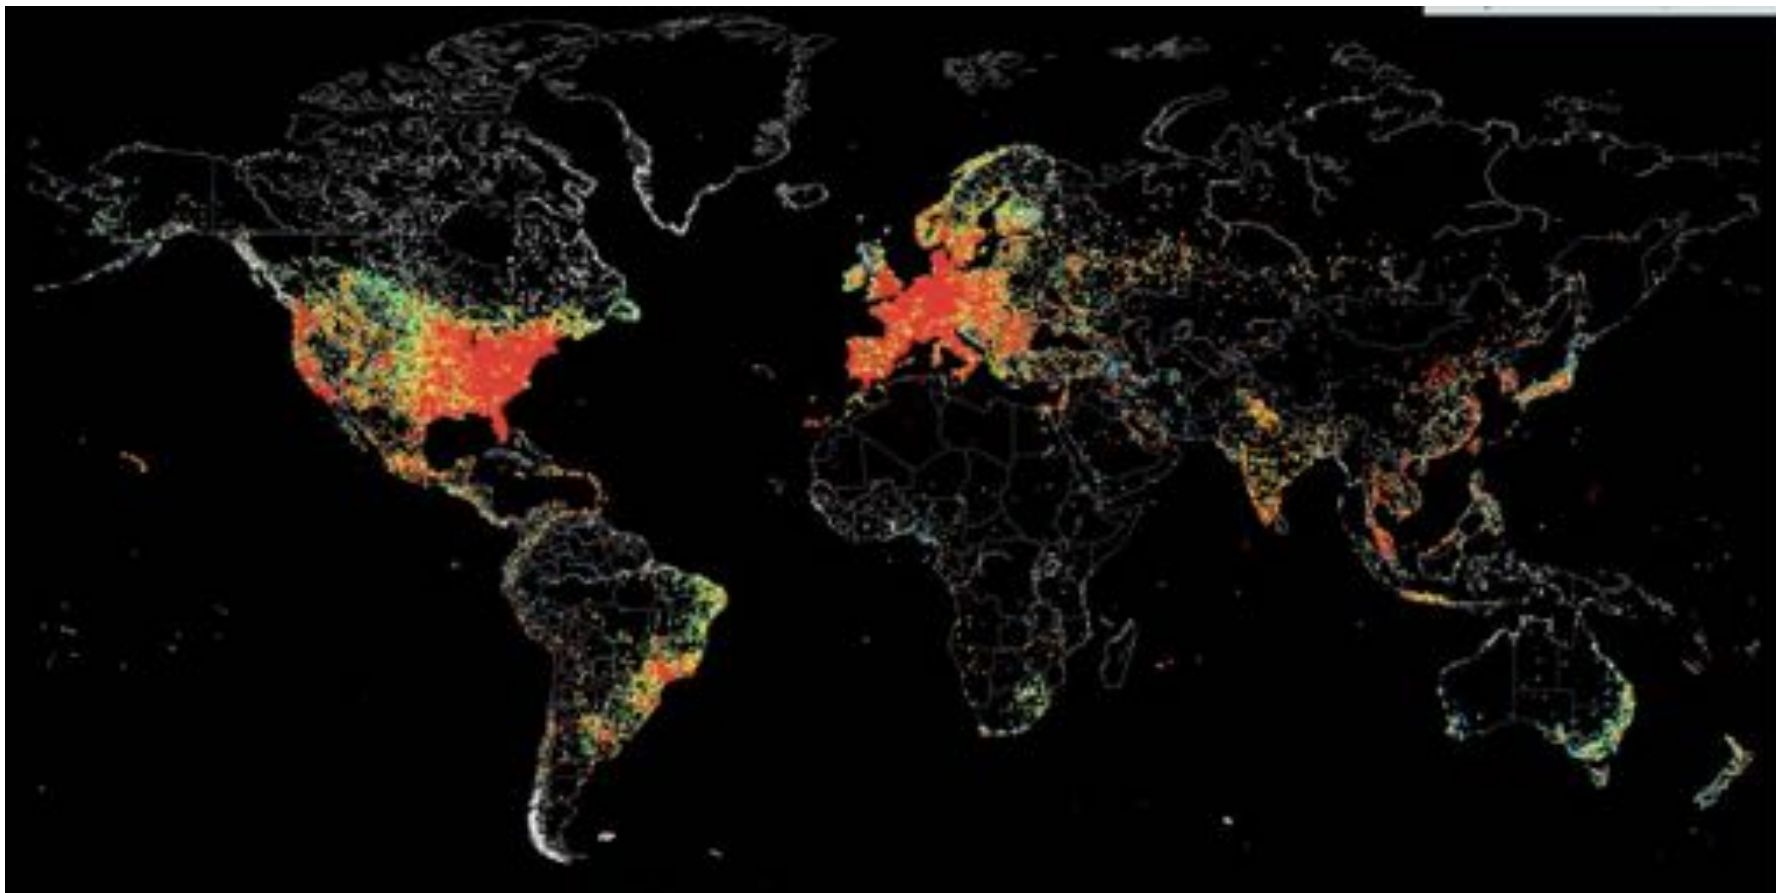

- So what is it that you mainly do?
  Support each other, try to learn more about IG.

Renata Aquino Ribeiro #IGRegional http://bit.ly/iregwsis
