WSIS FORUM 2021
Starting from January
Final Week 17-21 May 2021

Title of Workshop: ICTs and Older Persons:
How to improve the e-inclusion of seniors in order to ensure social fairness, avoid intergenerational divide and help all ages to build resilience capacities in order to react to crises
Organiser: E-Seniors (Paris)

Emerging Trends

Importance of acting for the e-inclusion of seniors - nowadays more than ever - in order to

- keep them healthy and active
- fight against isolation, marginalization and intergenerational divide
- support independent living in old age

Help/empower all ages to build resilience capacities in order to react to crises with Internet/network resources

Concrete Actionable Items Identified

New online activities – on ZOOM - such as :
Intergenerational Radio -Theater (HIPOKAMP in Lodz / Poland)
Pan-European English activities meetings (EURAG and Eseniors seniors in 30 countries) such as

- Language conversation
- Book club discussions
- Memory training

healthy indoor and outdoor age-friendly environments

Challenges

Make ICTs more user-friendly !   + Foster the creation and implementation of smart, healthy, age-friendly indoor and

outdoor environments thanks to digital technologies (COST program)
