ARTIFICIAL INTELLIGENCE & CYBER SECURITY LAW

Amazon KDP

This Book seeks to examine what are the legalities that are lying on the cross-section of Artificial Intelligence and cyber security. It needs to be noted that these are still early days for growth of Artificial Intelligence related cyber security law jurisprudence and not much information is currently available. However, the broad trends can definitely be identified in the horizon.

[See publication](#)

ARTIFICIAL INTELLIGENCE, CYBERCRIMES & CYBERLAW

Amazon KDP

As Artificial Intelligence gains more attraction, the scenario of its misuse for cybercrime purposes is increasingly becoming an issue of important concern. Initially, it was thought that Artificial Intelligence ecosystem would be secured but with the new trends and developments emerging, it is apparent that Artificial Intelligence enabled cybercrime is going to be massive in the coming times.

Already at the time of writing, an Artificial Intelligence program has developed malware which...

Recommendations received

Neeraj Aarora

"In the time I have known Mr. Pavan Duggal, he has proven to be a highly intelligent, perceptive individual whose shows consistent, dedicated, and passionate enthusiasm towards the field of E-Commerce, Cyber Law, Cyber Crime and Cyber Securities. He always seemed to be very poised and articulated and came across as someone who has very sound knowledge of Cyber Law in his area of practice. He showed extraordinary prowess, not only in terms of conceptual understanding of the issues in

for others whenever they need him. He is a very hardworking and organized person who is always up-to-date with current Laws & Regulations. I am sure he is such a leader which would combine the values of the past with the changes and challenges of the modern day world."

Prem Mehra

"Pavan works with great detail through each and every case not stopping till the truth is there for all to see. As cyberlaw president he has found that not all laws are due to the same reasoning and new laws and presidents are needed This makes him more of a real law giver for Indian cyber space and not just a lawyer in a office"

Faiz Askari

"While doing stories on technology and its related areas, I interact with many tech professionals,, they talks about IT at an advanced level. BUt getting an advanced insight from a person of a diverse background is always interestiing.. Pavan is not only a great speaker but also someone who has a farsight on technology. Above all he is accesable and a understanding guy.. I wish him all the great luck in his future, Faiz"

Ravi Visvesvaraya Sharada Prasad

"I highly recommend Mr Pavan Duggal to any client for professional engagements. His education, experience, and expertise make Pavan Duggal one of the top lawyers in the world in the fields of cyberlaw, e-commerce, information systems law, copyrights, software patents, hacking, cybersecurity law, spam, online privacy etc. Pavan is a world-recognized expert in these fields, and the author of several internationally acclaimed books and papers. He is interviewed on television and in the newspapers almost daily. It is a real education to read his columns and articles. Pavan is very active in industry fora such as ASSOCHAM. It is always a pleasure to meet Pavan Duggal and benefit from his knowledge and contacts.He is very knowledgeable, professional, responsible, helpful, and a person of great character and integrity. He is extremely pleasant, courteous, warm and friendly. Ravi Visvesvaraya Sharada Prasad"

Manish Bapat

"Extremely knowledgeable on interpretation & impact of Information Technology on Law in India. It has always been a pleasure and a great source of knowledge working with Pavan as well as being in his company during various industry events."
