

# ITU Seminar on IMT-2000 and Systems Beyond

K.P. Lathia, C Eng., FIEE

Seminar Coordinator & Vice Chair, ITU-T SSG

VP - Standards & Fora

# Scope of the seminar

- Give a high-level overview **IMT-2000 Critical Issues**  
**Seamless Service Provisioning (Harmonization, evolution)**  
**Regulatory Issues**
- **IMT-2000 Core Networks and evolution towards “all-IP”**
- **IMT-2000 Radio Networks and evolution towards “soft radio”**
- **Research Activities on Systems beyond IMT-2000**

**This seminar is a follow up of the SSG IMT-2000 Seminar in Rio.**

**All presentations, including those of Rio Seminar are included in CD-ROM which also contains pre-publication version of ITU-T Recommendation Q.1741.1 (a.k.a. “UMTS” or “W-CDMA”)**

# Acknowledgements & Request

- **Special thanks to all Speakers for sharing their knowledge**
- **Apologies for missing presentation(s) on CD-ROM due to logistics and availability of presentation(s)**
- **PLEASE RESPECT THE TIMES!!**

**THANK YOU**
