

Fumio Watanabe

Dr. Watanabe received the B. S. and Dr. E. degrees in electronic engineering from Tokyo Institute of Technology in 1975 and 1980, respectively. He joined R & D Laboratories of KDD in 1980 and engaged in research and development on antennas, satellite communication systems, and mobile communication systems. He was a vice president of KDD R&D Laboratories Inc from 1998 and the director of IMT-2000 Business Development Office of KDD from 2000. He is now the head of Radio Access Network Department in Mobile Communications Engineering Division of KDDI. He received Piero Fanti International Prize awarded by Telespazio and INTELSAT in 1989, the R & D Awards of Radio Systems awarded by RCR in 1991, the meritorious Awards on ITU activities from ITU-AJ in 2001, respectively. He is the chairman of mITF System sub-committee.
