CHARGING AND ACCOUNTING IN INTERNATIONAL
TELECOMMUNICATIONS SERVICES

CHARGING AND ACCOUNTING IN THE
INTERNATIONAL TELEPHONE SERVICE

**CHARGING IN AUTOMATIC SERVICE FOR
CALLS TERMINATING ON SPECIAL SERVICES
FOR SUSPENDED, CANCELLED OR
TRANSFERRED SUBSCRIBERS**

Reedition of CCITT Recommendation D.103 published in
the Blue Book, Fascicle II.1 (1988)

NOTES

- 1 CCITT Recommendation D.103 was published in Fascicle II.1 of the *Blue Book*. This file is an extract from the *Blue Book*. While the presentation and layout of the text might be slightly different from the *Blue Book* version, the contents of the file are identical to the *Blue Book* version and copyright conditions remain unchanged (see below).
- 2 In this Recommendation, the expression “Administration” is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

Recommendation D.103

**CHARGING IN AUTOMATIC SERVICE FOR CALLS TERMINATING
ON SPECIAL SERVICES FOR SUSPENDED, CANCELLED
OR TRANSFERRED SUBSCRIBERS ¹⁾**

(Melbourne, 1988)

It is desirable for calls terminating on special services for suspended, cancelled or transferred subscribers in the international automatic service to receive the same treatment in different countries.

The CCITT considers that no charge should be made for these calls.

Note – As far as all the signalling systems involved in a given connection for any of the possible relations allow the transmission of the “no-charge” information, the answer signal should not be withheld. Nevertheless such a situation will not exist on a worldwide basis for a long period to come. Therefore it is appropriate, for the time being, to suppress the sending of the answer signal on the international circuits for calls towards these special services. It should also be noted that according to Recommendation Q.118, such calls will be cleared upon expiry of a certain fixed time-out.

¹⁾ This Recommendation is also included in the Series E Recommendations under the number E.231.

ITU-T RECOMMENDATIONS SERIES

Series A	Organization of the work of the ITU-T
Series B	Means of expression: definitions, symbols, classification
Series C	General telecommunication statistics
Series D	General tariff principles
Series E	Overall network operation, telephone service, service operation and human factors
Series F	Non-telephone telecommunication services
Series G	Transmission systems and media, digital systems and networks
Series H	Audiovisual and multimedia systems
Series I	Integrated services digital network
Series J	Transmission of television, sound programme and other multimedia signals
Series K	Protection against interference
Series L	Construction, installation and protection of cables and other elements of outside plant
Series M	TMN and network maintenance: international transmission systems, telephone circuits, telegraphy, facsimile and leased circuits
Series N	Maintenance: international sound programme and television transmission circuits
Series O	Specifications of measuring equipment
Series P	Telephone transmission quality, telephone installations, local line networks
Series Q	Switching and signalling
Series R	Telegraph transmission
Series S	Telegraph services terminal equipment
Series T	Terminals for telematic services
Series U	Telegraph switching
Series V	Data communication over the telephone network
Series X	Data networks and open system communications
