Long-term changes related to the climate Source: IPCC, WG1 contribution to 4th assessment report.

Climate Change Impacts

- ▣ Agriculture - includes cropping and livestock sectors
- ▣ Biodiversity - includes national reserves, species diversity, ecosystems
- ▣ Coasts - includes fisheries, marine life, coastal infrastructure
- ▣ Forests - includes natural and plantation forests
- ▣ Settlements - includes infrastructure, local government, planning, human health, transport, energy, emergency services
- ▣ Water - includes drought, water quality, water supplies

Climate Change Vulnerability in Africa

The vulnerabilities

	Desertification		Deforestation		Spread of malaria
	Sea level rise		Loss of forest quality		Impacts on food security
	Reduced freshwater availability		Degradation of woodlands		
	Cyclones		Coral bleaching		
	Coastal erosion

THE WORLD IN 2009:
ICT FACTS AND FIGURES

A decade of ICT growth driven by mobile technologies

An estimated 4.6 bn subscriptions globally by the end of 2009

Source: ITU World Telecommunication/ICT Indicators Database.

* Estimates.

The rise of mobile broadband... ...but not everywhere

Millions

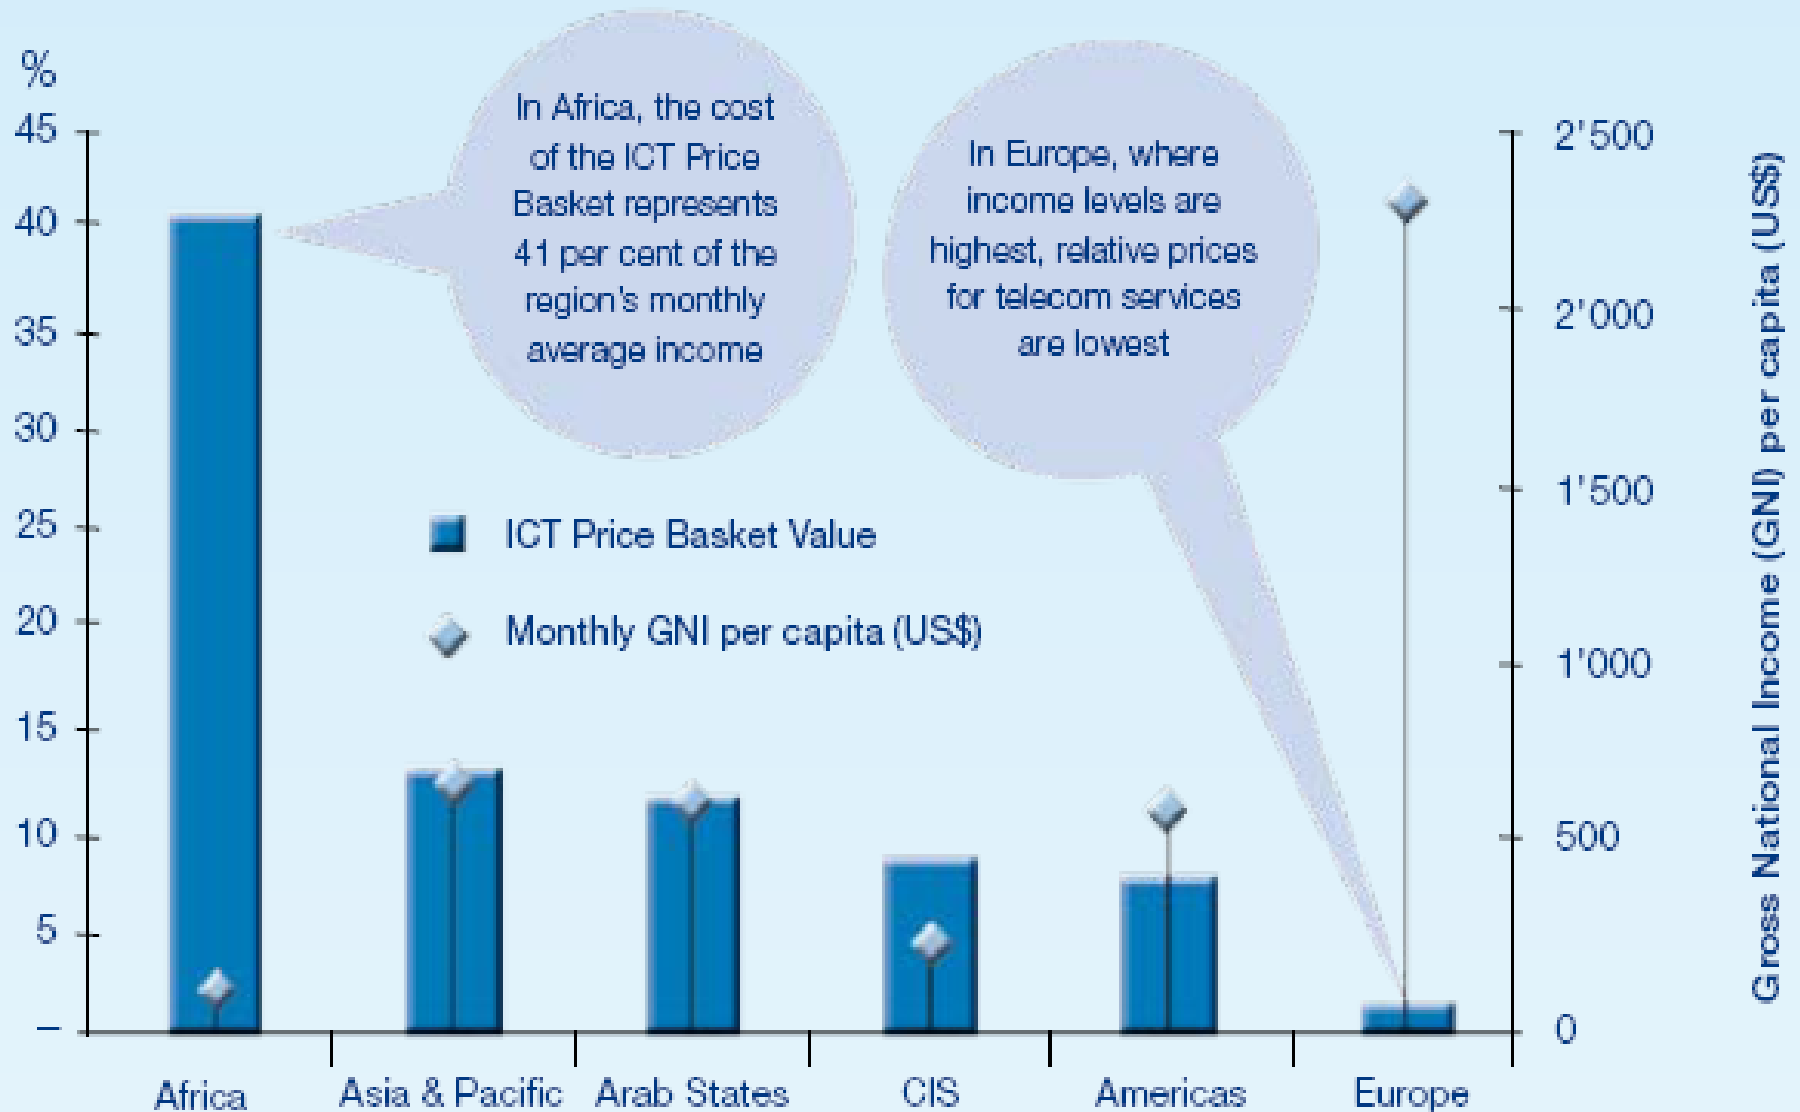

Source: ITU World Telecommunication/ICT Indicators Database.

Note: The regions refer to the 191 ITU Member States.

* Estimates.

How much are we paying?

ICT Price Basket 2008

OVERVIEW

ICT PLAYS A FUNDAMENTAL ROLE IN DRIVING GROWTH BY:

Enabling trade
and commerce

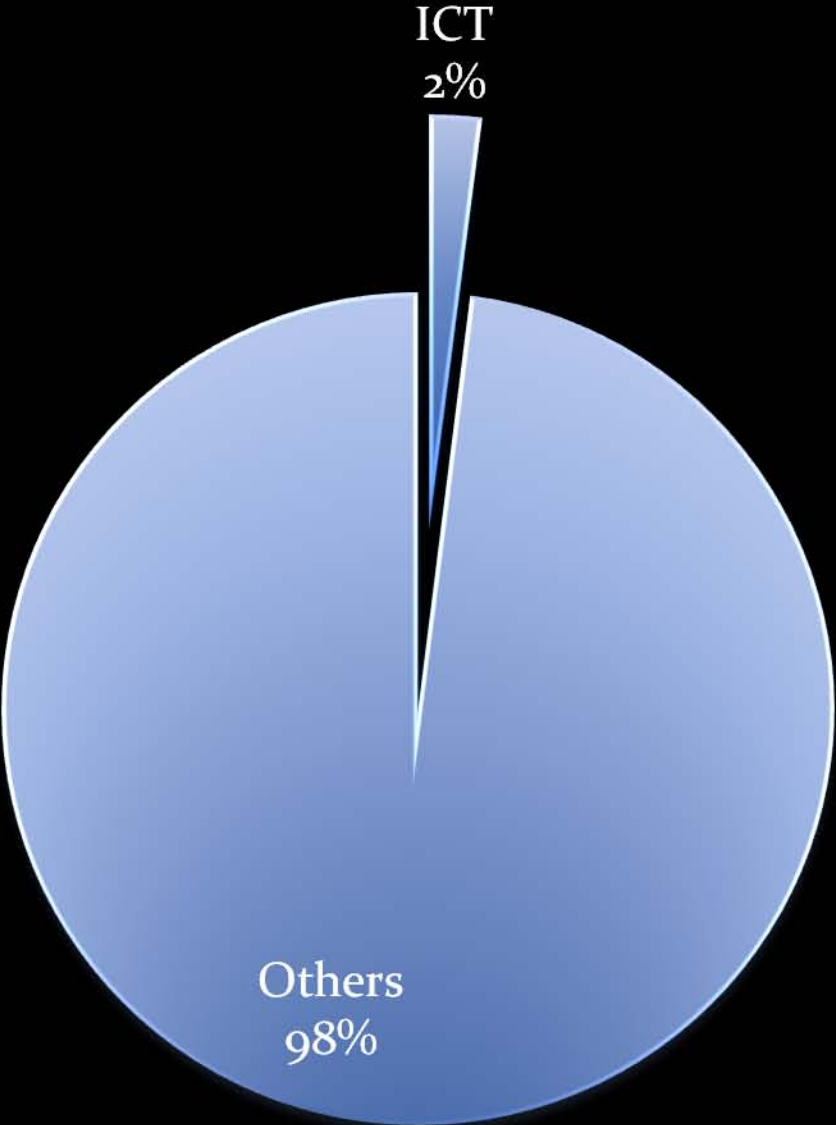

Enabling travel and
global connectivity

Enabling
productivity

Enabling
value creation

Emissions

INTERNET opportunities to reduce Emissions

- ▣ Video and Tele Conferences
- ▣ Flexi-Work
- ▣ E-learning
- ▣ E-commerce
- ▣ E-banking
- ▣ E-government

Laws for Green IT in the 21st Century - WWF

1. Sustainable IT solutions need to be purposely used for CO2 reductions to take place
2. The amount of support that is needed to implement sustainable IT solutions depends on how much old companies and policy makers are obstructing necessary change (due to fear of losing influence and money)
3. For each IT solution used, there is a counter effect that can either strengthen or weaken the momentum towards a low-carbon society

THANK
YOU
